Business Information

NOT OPEN ON SUNDAYS. We do not have help to dig stock on Saturdays but if you want to pick up stock on Saturday let us know long enough in advance so we can have it ready for you. Closed from Saturday noon to Monday morning.

THESE PRICES are in effect Fall 1958, Spring 1959.

ALL OUR STOCK is fresh dug for each order. None of it is in storage except strawberry plants.

PRICES named in this Trade List apply only to orders placed by nurserymen, florists, and dealers. Maryland customers are subject to 3% sales tax or send your License Number. All delivery costs are to be paid by purchaser.

PACKING. Boxes and bales will be charged costs of material and labor used. We will add this cost to your invoice. **This cost applies whether you remit with order or buy on time terms.**

CLAIMS, if any, must be made immediately upon receipt of goods, and if just, made satisfactory, but in no case are we responsible for more than the purchase price of the stock in question. **We will not be responsible for failure to fill orders in full or for any damage or delay to stock after delivery to the transportation company.**

TERMS. Net, no discount or net 30 days from date of shipment to those of known responsibility **but must have satisfactory business references from others or remittance must accompany order.** Those desiring stock shipped C.O.D. will please remit **one-fourth** the amount of their purchase when ordering. Other terms by special arrangement.

NON-WARRANTY. We give no warranty, expressed or implied, the purchaser assuming all risk and responsibility of transportation, growth, planting, life of stock or any other matter on any stock we sell. We send out good stock, carefully grown and packed but cannot control conditions after it leaves our care. We exercise the greatest care to keep our stock true to name and are willing to replace on proper proof any stock that may prove otherwise, or refund the amount paid us for such stock, but it is mutually agreed that we shall not at any time be liable for any greater amount.

TELL US HOW TO SHIP, whether by express, motor truck, or railroad freight. If by motor truck or railroad freight, tell us the route or over which line you want delivery made. If you do not give this information we will use our own judgment as to route and methods to use. **It is mutually agreed that whether you name the route or leave it to our own selection, we will not in any way be responsible for time or condition of delivery and our responsibility ceases upon our delivery to the transportation company.**

HARDINESS OF PLANTS. When hardiness of plants is mentioned herein it applies to this section.

TIME OF SHIPMENT. We ship most every week in the year with the possible exception of during the winter when bad weather makes it impossible, although this is very seldom. Of course, there is a regular season for shipping, the different plants, but if you want them out of season and are willing to take the risk of good delivery, we will pack with the utmost care and get them off to you at most any time you want them. Risky shipping in hot summer.

Plan to Visit Our Nursery

We will certainly be glad to have you come to see our stock for yourself. We believe you will find it compares favorably with that grown by other nurseries. Some of our customers have told us it is better than is furnished by some others. We are on the Eastern Shore of Maryland, 100 miles south of Wilmington, Delaware, 100 miles from Kiptopeke-Norfolk, Va., ferry, 90 miles from Annapolis, Md., via Chesapeake Bay Bridge, 150 miles from Baltimore, Md., via Elkton, Md., 225 miles from New York, N. Y. We hope you can come to see our stock. It is good driving on the famous Delmarva Peninsula.

Ornamental Stock

BOXWOOD

Boxwood is another of our specialties and by growing it in the quantities we do, we are enabled to furnish it at these very low prices. This Boxwood is first-class in every way. We have customers who send us repeat orders several times during a season. We know you will like our Boxwood if you will let us send you some of it. **Good Stock, Good Service, and Low Prices.**

	Each	10	100	1000
BUXUS ARBORESCENS AUREA. This is the golden leaf variety of the Tree Boxwood.				
* Rooted cuttings		$1.50	$12.50	
BUXUS HARLANDI. New, dwarf, beautiful, dense and compact. Leaves long; slow grower.				
* 2¼ in. pot plants 2 yr.		$3.00	$25.00	
BUXUS JAPONICA. A hardy, tall-growing type with light green leaves.

12 to 15 in. B&B	$2.00	15.00		
4 to 5 ft. B&B	35.00			
BUXUS KOREANA A.A. TYPE. This is probably the hardiest of all the Boxwoods. This strain is entirely different from the above. Propagated from plants sent to us by the Arnold Arboretum many years ago. Foliage a good green both summer and winter; narrower leaves than Sempervirens; slow, spreading grower.				
* 2 in. pot plants		$4.00	$35.00	
BUXUS MICROPHYLLA var. COMPACTA. New, rare, extremely dwarf and hardy Boxwood. Has stood all weather conditions in the Pocono Mountains where temperature drops below zero. Very dwarf and slow growing. Ideal for edging, rockeries, Knott gardens and all uses where plants are required to remain dwarf. Original plant after twenty-eight years, is now about 12 inches high and 21 inches wide. A rare gem.				
* 2 in. pot plants 1 yr.		$3.00	$25.00	
* 2¼ in. plot plants 2 yr.		6.00	50.00	
BUXUS SEMPERVIRENS. An old-time favorite in gardens and much used for hedges as well as for specimen plants. This is called the Bush Box and is a faster growing type than Suffruticosa Box. If you want the real dwarf growing kind you should get Suffruticosa.				
* Rooted cuttings			$8.00	$75.00
* 6 to 8 in. trans. heavy		$5.00	40.00	300.00
* 8 to 10 in. trans. heavy		6.00	45.00	350.00
BUXUS SEMPERVIRENS FASTIGIATA. Grows in a pyramidal or columnar form. Rare.

* 2¼ in. pot plants 2 yr.		4.00	30.00	$275.00
BUXUS SEMPERVIRENS ROTUNDIFOLIA. A round leaf type of Sempervirens. Very scarce.				
* 2¼ in. pot plants 2 yr.		$4.00	$35.00	
BUXUS SUFFRUTICOSA (Old English Dwarf Box). As a low edging in formal gardens there is no greater favorite than this variety of Box. This is the variety that is so much seen in Washington's gardens at Mt. Vernon and in other noted gardens in Delaware, Maryland, Virginia, and other Middle Atlantic States.				
* 1 yr. rooted cuttings			$8.50	$75.00
* 3 to 4 in. trans.		$3.00	25.00	200.00
* 4 to 6 in. trans.		3.50	30.00	250.00
* 6 to 8 in. trans.		5.00	40.00	350.00

We have 30,000 last two sizes above. Very nice plants.

COLORED PLATE BOOK

A brand new plate book, just published, much more complete and up-to-date than the one we previously offered. Has 96 pages of colored pictures with descriptions. Size, 8½ x 11 inches. We think it is well worth the price of **$4.00 postpaid.**

Our Magnolia Soulangeana are very nice this year. Several hundreds of them.

CAMELLIA SASANQUA

We believe these are one of the best evergreen flowering shrubs at zero or maybe a little colder. They bloom from September until freezing weather. The demand for these plants is increasing about as much as for any plant we grow. Suggest you try them and treat them about as you would the Kurume Azaleas as to soil and culture.

	Each	10	100	1000

The Rare Franklinia

A Very Unusual Flowering Tree

Each twig develops at its tip a cluster of buds of graduated size, like overgrown greenish pearls. Early in August the largest of these attain the size of marbles. Then the guard petal folds back, still retaining its firm spherical form. From this shelter emerges four other petals, satiny, snowy white, elaborately frilled and pleated. The snowy, frilly chalice, three inches in diameter, holds a sumptuous mass of orange-gold stamens and breathes forth a delicate, balmy fragrance.

Each flower lasts two or three days and then drops cleanly. **There is a constant succession of blooms till hard frost.** We frequently get the unusual effect of a tree clad in crimson, autumn foliage and abundantly starred with white flowers.

The Franklinia begins blooming when not more than 3 or 4 feet high. Young trees under favorable conditions increase in height a foot or more each season. Specimens 30 feet high are known. It develops naturally with several trunks, but may easily be trained to a single trunk by removing the sprouts which start from the base.

Franklinia prefers full sun, has proved entirely hardy about New York and hardy in favorable locations about Boston, Mass., and in Ohio.

HOLLY (Ilex)

For many years we have been urging nurserymen to grow more holly. Fifteen years ago there was not very much demand for holly. If you will refer to our catalogs about that time and since, you will find we said, "The nurseryman who will grow a collection of Hollies to a specimen size will have something he can sell, whether times are good or whether they are bad. There is always a demand for them, and there will be as long as any other plants will sell."

Try to buy nice holly now, see how scarce it is. We find demand increasing each season.

AQUIFOLIA Angustifolia. Very narrow leaf. Beautiful.
4 in. pot plants.....$1.25 $11.50 $100.00

AQUIFOLIA EARLY COMMERCIAL. This is extensively grown in the Oregon section for early cutting as berries turn red early.
4 in. pot plants.....$1.25 $11.50 $100.00

AQUIFOLIA Femina. The cuttings in this lot were taken from trees when not in bloom or fruit, but are from named varieties. A very good selection and buy, if not particular in having the variety named. Berry bearing.

MALUS — FLOWERING CRABS

The Flowering Crabs are among the most charming of spring trees. They are not only beautiful when in blossom but many carry most ornamental and richly-colored fruit in the autumn. Most of the Crab family form graceful garden trees of medium size. They are quite hardy and require no particular cultivation, thriving best in a good loam and full sunshine.

Why not offer your customers more of the newer plants? You can make more profit than with the older varieties.

This nursery was started just 53 years ago by the present owner. We have made many mistakes but we believe our customers will agree that we have always tried to give a dollar in value for every dollar received. This will be our aim as long as The Tingle Nursery Co. stays in business. If you have any reason for complaint, tell us.

WEEPING JAPANESE CHERRY

These are seedlings of Prunus Subhirtela Pendula and while we never get all the weeping type from seed these look like a good proportion will eventually be weeping type. 15 to 24 in. tall now. A bargain at $3.50 for 10 or $25.00 per 100, whether they weep or not.

We try to secure our propagating wood from only the very best type of plants, and by doing this we can furnish you stock that should be of the best that it is possible for you to get anywhere, regardless of price.

This may save you a trip. Don't take a chance but contact us before coming or sending for a load unless your order has previously been received and acknowledged for a certain date.

TAXUS (Yew)

The Taxus are undoubtedly the most popular and useful of all the ornamental evergreens. We have been growing them extensively a good many years and the demand keeps increasing.

The English Yew (Taxus baccata) is not reliably hardy in the north, and many do not realize that the Japanese, and many forms of Media, are perfectly hardy in and around Boston, and the Japanese even in northern New England.

They are not so particular as to character of soil except that it should not be too wet, but they do appreciate plenty of good plant food. They are immune to many insect pests and plant diseases so destructive to many other evergreens.

The Yew in its many species and forms can well be used in most all places where any other evergreen will do well.

We have small quantities of larger sizes of many of these varieties but are too bulky and heavy to ship. These are for truck shipment only.

We honestly believe you will do well to plant and grow on some of these Yews.

Baccata (English Yew). Widely planted in English Churchyards. A good ornament. Hardy as far north as New York City. Upright, dark green foliage. Very good for the South and where it is hardy.

MORE HATFIELD YEWS

The following varieties were grown from stock purchased from the late T. D. Hatfield. He selected these as being the best of his unnamed varieties and we are still carrying them under his original numbers. We are giving brief descriptions.

Hatfield No. 2. Real dark foliage, upright grower; very dense; needles medium length. Very good.

* 8 to 10 in. trans		$3.50	$30.00

Hatfield No. 6. Somewhat like No. 8 in growth but twigs are not as heavy; leaves narrow. Very graceful.

* 6 to 8 in. trans		$3.00	$25.00
* 8 to 10 in. trans		3.50	30.00
*10 to 12 in. trans		4.00	35.00
*12 to 15 in. trans		4.50	40.00

Hatfield No. 7. Bright glossy green, heavy foliage; long needles. A low growing spreading type. Berry bearing. This one sells itself when seen.

* 4 to 6 in. trans		$2.50	$20.00
* 6 to 8 in. trans		3.00	25.00
12 to 15 in. B&B	$3.50	32.50	
15 to 18 in. B&B	4.00	37.50	

Hatfield No. 8. Slow growing; very compact. Foliage bright green. Resembling Cuspidata Nana. Heavy fruiting type.

* 4 to 6 in. trans		$2.50	$20.00
* 6 to 8 in. trans		3.00	25.00
*10 to 12 in. trans		4.00	35.00

15 to 18 in. B&B	4.00	37.50	

	Each	10	100	1000

Hatfield No. 18. Similar in growth to **Taxus cuspidata.** Foliage a shade lighter making it wonderfully attractive. Probably the most rapid grower of all the low types of Taxus. However, it can be kept compact with a little shearing. If you want a good, quick grower, yet one having the good qualities of Cuspidata.

TINGLE'S YEW SELECTIONS

The following five varieties of yews are our own selections and we believe you will find they are very good. No. 32 has too much Canadensis blood in it for this far south but it should be better for northern sections.

Media T 31. A new one of our own selection. Grows in semi-globe shape. Complete, good color, grows fairly rapid. This has attracted much attention here.

* 4 to 6 in. trans.....		$2.50	$20.00
* 6 to 8 in. trans.....		3.00	25.00
* 8 to 10 in. trans.....		3.50	30.00
*10 to 12 in. trans.....		4.00	35.00
15 to 18 in. B&B.....	$4.00	37.50	350.00
18 to 24 in. B&B.....	4.50	42.50	

Media T 32. Another of our selections. Original plants without shearing. 6 ft. wide, 24 in. high. Very short needles. Recommended for the north.

* 8 to 10 in. trans.....		$3.50	$30.00
*10 to 12 in. trans.....		4.00	35.00

Media T 33. Slender, upright grower. Foliage dark green. Useful in narrow spaces. One of our selection.

* 4 to 6 in. trans.....		$2.50	$20.00
* 6 to 8 in. trans.....		3.00	25.00
* 8 to 10 in. trans.....		3.50	30.00
*10 to 12 in. trans.....		4.00	35.00
*12 to 15 in. trans.....		5.00	40.00

Media T. 34. Full-bodied upright grower; foliage little darker than T 33. Capitata form comes good from cuttings.

* 4 to 6 in. trans.....		$2.50	$20.00
* 6 to 8 in. trans.....		3.00	25.00
* 8 to 10 in. trans.....		3.50	30.00

Media T 35. This is very much like Cuspidata Nana. Foliage not quite as heavy and grows much better. We think it is a much better plant.

10 to 12 in. trans.....		$4.00	$35.00
12 to 15 in. B&B.....	$3.50	32.50	300.00

Media T 36. Nana type foliage. Light green, graceful.

Azaleas

At this writing we believe we will have about the nicest lot of Azaleas we have ever grown. Besides our usual large collection of the smaller sizes we have a good assortment of the larger sizes. If you can come get truck-loads without burlapping we can make very attractive prices. Come see them.

During the past few years the growing and sales of Azaleas have increased many fold. It is doubtful if anyone visioned the vast production that is now being carried on. Millions are being grown and still many nurseries are sold out before the season is near over each year.

We have been growing the Azalea a quarter of a century and more, and have never had to "brush-pile" any. If we did not sell them one year we could grow them on and they would be worth more in future seasons.

We certainly recommend the Azalea to you to grow as a personal pleasure, a hobby or as a commercial proposition. There is usually much enjoyment and profit in growing them.

They are not too hard to grow. Here, we root the cuttings in two parts peat-moss, three parts medium coarse, washed sand. Transferring them to 2-inch pots for a season, when rooted, then plant them in four-feet wide beds, five inches apart each way with half shade provided by woven lath shading about 16 inches above ground. They will grow for two seasons under these conditions without damage to themselves, as an Azalea will withstand crowding more than most plants.

If we do not sell these plants at this stage of growth they are in good size to move to other beds, spacing them farther apart, or plant out in wide spaced field rows for growing on as large specimen plants.

Our soil conditions here seem to be about right for growing Azaleas without any special treatment. From special tests that have been made, a pH between 5 and 6 seems to be best.

We use rotten cow manure, cottonseed meal, tankage and specially prepared fertilizers which is marketed by many concerns in growing our Azaleas, as well as for growing other acid-loving plants. Many grow very nice Azaleas with only leaf-mold or peat moss.

KURUME AZALEAS

The Kurume Azaleas are one of the most showy of all flowers for the garden. They are also well adapted to forcing —thousands of them being sold for Easter, Mother's Day, and Decoration Day. They are comparatively easy to grow and make such a wonderful display that the demand is constantly increasing. Many of the varieties are hardy out-of-doors as far north as Long Island. They are extremely floriferous, and in season, the blossoms completely cover the plants. The colors are almost every hue and shade except yellow, as you will find below.

1 to 5 at each rate, 5 or more at the 10 rate, 50 or more at the 100 rate, 500 or more at the thousand rate.

GABLE'S HARDIER AZALEAS

Mr. Joseph B. Gable of Pennsylvania has spent almost a lifetime working with Azaleas and Rhododendrons. Many years ago he started breeding azaleas with the hopes of producing a hardier type of evergreen azalea in a good color range than then available. He has had wonderful success and is now recognized as the leader in this field.

As to hardiness: these varieties will average hardier than Hinodegiri and Amoena and much hardier than the other Kurumes. All have lived and flowered in the open field where they have withstood temperatures of twenty below zero and more in the past few winters with only negligible injury to a few. Most of them were uninjured. See article in Saturday Evening Post dated March 20, 1954.

KAEMPFERI HYBRID AZALEAS

In these new Kaempferi Hybrids—the result of crossing Kaempferi and Malvatica—there has been obtained the hardiest type of evergreen Azalea, with a good range of form and color in the flowers so far achieved. Several years' tests have demonstrated that these new Hybrids are just as hardy as Kaempferi, until now the hardiest of the evergreen sorts. In connection with these Hybrids we suggest you try out the new Gable varieties we are offering.

AS GOOD AS CAN BE GROWN

We are exerting effort to produce the very best stock that can be grown, and in our fifty-one years' experience we believe we have never offered bigger values than we are offering this season. Even with the short supply of Lining-Out stock we have kept our prices at a low level. We feel sure you will be more than pleased with the stock we send you if you give us your order.

We try to secure our propagating wood from only the very best type of plants, and by doing this we can furnish you stock that should be of the best that it is possible for you to get anywhere, regardless of price.

FELDYK AZALEAS

From a famous grower in Holland. Introduced as "the Sweet Pea colored strain." They are crosses between Malvatica and Kaempferi and Japanese Azaleas. Have large bright colored flowers. Force easily, strong growers and very hardy. The blossoms exhibit all the delightful colors we most associate with Sweet Peas.

Prices of following varieties:

* 2 yr. field beds XX trans.	$3.50	$27.50
* 3 yr. field beds XX trans.	4.50	40.00
* 4 yr. field beds XX trans.	6.00	50.00

CHLORIS. Pink. 2 yr., 4 yr.

DIANA. Salmon-pink. 2 yr.

HELENA. Pink. 2 yr., 4 yr.

JEANNE. Violet. 2 yr., 4 yr.

ORION. Salmon-pink. 2 yr., 4 yr.

PSYCHE. Pure pink. 2 yr.

VUYKIANA AZALEAS

A new race of very large flowered Japanese Azaleas, produced by crossing hardy Azalea Malvatica hybrids with Azalea Mollis. Sturdy growers, prolific bloomers. From the information we have they are much hardier than the Kurume Azaleas. Flowers range from 2 to 2½ inches. All bloom late midseason. Plants grow tall.

HELENA VUYK. Deep carmine rose.		
* 2 yr. field beds XX trans.	$3.50	$27.50
JOHANN STRAUSS. Single, rose flowers, blotched.		
* 4 yr. field beds XX trans.	$6.00	$50.00
JOHN SEBASTIAN BACH. Purple-violet. Tall grower.		
* 4 yr. field beds XX trans.	$6.00	$50.00

PALESTRINA. We are recommending this to use in place of Ledifolia Alba for a tall growing white bloomer. Last season when Ledifolia Alba were both bud and bloom killed, Palestrina came through without any wood damage and plenty of white flowers. Try it for a hardier tall white.

* 2 in. pot plants	$2.00	$15.00	
* 2 yr. field beds XX trans.	3.50	27.50	
* 3 yr. field beds XX trans.	4.50	40.00

U. S. D. A. AZALEAS

Some years ago the U. S. Dept. of Agriculture introduced a collection of Azaleas mostly from Japan. We have been growing these Azaleas many years and have selected the following varieties as the best ones in this collection. They are well worth trying.

	Each	10	100	1000
BENI KIRISHIMA. Old rose, semi-double.				
* 2 yr. field beds XX trans...		$3.50	$27.50	
* 3 yr. field beds XX trans...		5.00	40.00	
10 to 12 in. B&B.....	$1.75	15.00		
12 to 15 in. B&B.....	2.50	22.50		
CARMINATA SPLENDENS. Very fine bright red.				
* 2 yr. field beds XX trans...		$3.50	$27.50	
* 4 yr. field beds XX trans...		6.00	50.00	
GIBIYAMA. A very good purple flowered variety.				
* 2 yr. field beds XX trans...		$3.50	$27.50	
* 4 yr. field beds XX trans...		6.00	50.00	
SUISHOREN. Flowers almost double. Little smaller and little darker than Hinomayo.				
* 2 yr. field beds XX trans...		$3.50	$27.50	

PERICAT AZALEAS

These are essentially for florists' use as they are not dependably hardy here, although we have been growing them outside several years.

MME. PERICAT. A large light double pink.			
* 2 in. pot plants.....	$2.00	$15.00	
* 3 yr. field beds XX trans...	5.00	40.00	
SWEETHEART SUPREME. The favorite florists pink.			
* 3 yr. field beds XX trans...	$5.00	$40.00	
* 4 yr. field beds XX trans...	6.00	50.00	

MERRITT AZALEAS

A collection of very worthwhile Azaleas produced by the late Dr. E. A. Merritt of Bethesda, Maryland. Have heard quite a bit about these Azaleas and finally secured a complete collection of them. We think they are well worth trying south of Philadelphia and possibly where the regular Kurume varieties will grow. The colors are bright and clean. Our stock plants look like they would make good forcing varieties.

We have a limited supply of most of these varieties. If you want some of them and will let us know which ones you want we will let you know what we can furnish.

GLENN DALE AZALEAS

We began growing these Glenn Dale Azaleas in 1941. During the past few years, since they are becoming better known, the demand has increased rapidly. Most all the reports we get from the growers are very enthusiastic. They are doing well in some sections where the evergreen varieties were not supposed to grow.

Many who have seen our fields of these Glenn Dale Azaleas in bloom expressed their amazement and joy at their size, coloring and quantity of bloom. You folks who have been dealing with us for the past many years know we do not recommend a plant unless we really believe in it. We do suggest you try some of these Glenn Dale varieties if you can grow any of the other evergreen azaleas and while you may have some disappointments we feel sure you will be greatly pleased with their growth and beauty.

These one-line descriptions do not tell you much but we do have a special booklet that describes them much more fully. Sent on request—no charge.

Sometimes when Azalea flowers are described as striped or flaked on white they will appear as a solid color. When this occurs the branch should be cut out. This seems inherent with the variety—not any fault of the nurseryman.

L=24 to 30 in. B&B	5.00	47.50	450.00

Capital Letters after variety name indicate sizes available in that variety, as capital B means 2 in. pot plant size, capital C means 2 yr. field beds XX trans., and so-on. We hope you will understand this system of indicating sizes as it saves a lot of space in catalog. We have been using this system for Crabapples several years and it seems to be working fine.

We will furnish one to five plants of a variety and size at each rate; five to 25 of a variety and size at the ten rate; 25 or more of a variety and size at the 100 rate.

AS GOOD AS CAN BE GROWN

We are exerting effort to produce the very best stock that can be grown, and in our fifty-one years' experience we believe we have never offered bigger values than we are offering this season. Even with the short supply of Lining-Out stock we have kept our prices at a low level. We feel sure you will be more than pleased with the stock we send you if you give us your order.

We try to secure our propagating wood from only the very best type of plants, and by doing this we can furnish you stock that should be of the best that it is possible for you to get anywhere, regardless of price.

Why not offer your customers more of the newer plants? You can make more profit than with the older varieties.

THE AZALEA BOOK by Frederic P. Lee and many other distinguished Azalea growers. This book tells more about Azaleas than any other source we know of and it is told in an understandable language so the amateur as well as the professional can easily understand it. If you want to order it and for any reason you are not satisfied we will refund the $8.95 you paid us for it. Price $8.95 postpaid. 324 big pages.

TELL US HOW TO SHIP, whether by express, motor truck, or railroad freight. If by motor truck or railroad freight, tell us the route or over which line you want delivery made. If you do not give this information we will use our own judgment as to route and methods to use. **It is mutually agreed that whether you name the route or leave it to our own selection, we will not in any way be responsible for time or condition of delivery and our responsibility ceases upon our delivery to the transportation company.**

*EDCO IRON

For experimental use in the control of chlorosis (lack of chlorophyl) in azaleas, gardenias, roses, citrus crops, etc.

Results to date have shown Edco Iron to be very effective in correcting chlorosis in the above crops. Chlorosis may be caused by the excess or deficiency of several major or minor nutrient elements in the plant besides iron, and it may be caused by an excess of water or its lack, but Edco Iron commonly seems to help correct the effect if not the cause of these several conditions.

Full directions for using with each lot.

Prices: 1 lb. $2.30; 10 or more lbs. at $2.00 per lb.

Grafting Is Easy

You have often wanted to propagate some plants of a scarce or high priced variety but did not have the proper facilities to do it with. With a new outfit we are offering, you can do it yourself, as easily as making an old-fashioned graft. You take a branch of the shrub or tree you wish to graft (leaving it on the parent plant) girdle the branch or twig, put damp peat moss or damp sphagnum moss around the girdled part and wrap it tightly with this new waterproof plastic (in sheets) and tie it, top and bottom, with rubber bands. Generally within six to eight weeks the twig is rooted ready to pot. It requires no watering or other attention until ready to pot. Complete outfit (enough plastic sheets and rubber bands to make 100 grafts) with complete instructions how to do the grafting, for $5.00 postpaid.

A FASCINATING HOBBY

Growing Azaleas is a hobby which provides an ever increasing source of interest. There are so many species to be had and so many almost breath-taking new hybrids being produced, that one is amazed at the magnificent display that we may have with only a small space of ground and a few of the newer plants that are now being offered. If you want a stimulating (and profitable) hobby that grows more interesting, beautiful and valuable every year, then grow azaleas.

ROOTONE

Just Dust and Plant

No Solutions No Waiting No Watching

We recommend ROOTONE because we have found it of much help to us in rooting cuttings, both in saving of time and in increased roots to the cutting. We use it on all the cuttings we plant. We know it pays us both in better roots and time saved in cutting beds.

CYTISUS BATTANDIERI

Mr. Will Ingwersen writing in the July 21, 1956 issue of Gardeners Chronicle says "There are few more beautiful shrubs in a small garden than Cytisus Battandieri. It is seldom disturbed by weather conditions, and my own specimen has emerged triumphantly from one of the worst winters I can remember for many years and is now a sheet of iridescent silver leaves, among which gleam, with all the brilliance of sunlight, great clusters of rich golden flowers. Not the least of this fine plant's many attractions is the intense fragrance of ripe fruits which the flowers exhale. It is like no other flower scent that I know."
